

# Gemütlichkeit Garden

Monique Warnke, Windsor W

Welcome to a vibrant cottage garden bursting with life! Forty tons of beautiful limestone provides a structured backdrop for an overflowing display of lilies, daylilies and other companion plants, each contributing to an abundance of color that dances through the beds. Prepare to be enchanted by this charming and lively space. The limestone steps take you to the top of the garden where the view is spectacular. Which brings me to ask you to enjoy the garden at your own risk.

The Englerth bed will be on display in my garden. There will be a local artist, Thomas Skupniewitz, displaying his sculptures which are for sale. He will also take orders for personally designed sculptures.
